Protect Yourself Online

For students and teens

DO THESE Your security checkup

- [ ] Protect your main email with a strong password and two-step login.
- [ ] Use a different password for every account.
- [ ] Add two-step login to your social media and gaming accounts.
- [ ] Never share a login code with anyone.
- [ ] Go private, limit who can message you, and turn off location sharing.
- [ ] Turn on automatic updates.
- [ ] Keep your school, schedule and address off public posts.
- [ ] Freeze your credit, or ask a parent to. It's free.

WATCH FOR Spot a scam

- Free game currency, surprise giveaways and urgent warnings are usually scams.
- Never share a login code. Open the app yourself instead of clicking links.
- If anyone threatens you, don't pay. Save everything and tell a trusted adult.

IF IT HAPPENS Got hacked?

1. Secure your email first: new password, sign out everywhere.
2. Recover the account through the app, then turn on two-step login.
3. Tell a parent if money or payment info was involved.
4. Threatened with images? Report at tips.fbi.gov and use Take It Down.
