Protect Yourself Online

For adults and families

DO THESE Your security checkup

- [ ] Give your email a unique password and turn on two-step login.
- [ ] Let a password manager create a different password for every site.
- [ ] Add passkeys or two-step login to email, banking and social media.
- [ ] Turn on automatic updates for your phone, computer and browser.
- [ ] Freeze your credit at Equifax, Experian and TransUnion. It's free.
- [ ] Ask your phone carrier for a number lock and an account PIN.
- [ ] Get an IRS identity protection PIN to block fake tax returns.
- [ ] Agree on a family code word for emergency calls.

WATCH FOR Spot a scam

- Slow down if it's urgent, secret or asks for gift cards, crypto or a wire.
- Don't use the link or number in the message. Look it up yourself.
- Ask for the family code word on any emergency money call.

IF IT HAPPENS Got hacked?

1. Secure your email first: new password, sign out everywhere.
2. Call your bank using the number on your card.
3. Identity theft: go to IdentityTheft.gov and freeze your credit.
4. Report fraud at IC3.gov and ReportFraud.ftc.gov.
